### **Tweeting with God**

"The #TwGOD book offers support to people who want to grow in their faith and their relationship with Jesus. It gives you a basic understanding of faith in God, based on what the Bible and the Church say about these matters. The book can serve as a starting point for group discussions, or to deepen your faith following an introductory course about Christianity. It can also be a useful reference book for people preparing to join the Catholic Church, for participants in confirmation classes, and for parents of young children preparing for first communion."
