Budding adventurers can join a weekly expedition into the woods to make dens and learn about flowers, mini-beasts and more at **Lenvos Gites** in Brittany. That's if you can drag them away from the swings, slides, forts, climbing wall and two fenced pools - one deep enough for diving. Each of the four cottages around a courtyard has its own fenced garden. There's also a boules court, a sports field and two fishing lakes. It's a 45-minute drive to the sandy beaches of the Morbihan coast, and nearby Lac de Guerlédan has several manmade beaches where little ones can swim (although during summer 2015 it's being emptied for repairs to the dam).
